

# Silence

Mike Posner

You only love me  
In bits and pieces  
I keep on workin'  
You keep your secrets  
That's not an insult  
That's not a lie  
That's just a statement  
Proven by time  
Cause even when I have you  
I don't really have you  
I am not your last dude  
Where'd you get this attitude?  
Talkin' 'bout you're leavin'  
Cause you don't believe in  
Me and all my reasons  
Left me with these demons  
And this little pen  
And this nostalgic feeling  
Only me alone  
I'm faking all my smiles

And you're just killing me with silence  
And you're just killing me with time  
I don't know where to put my sorry's  
You're running laps around my mind  
How could you leave me on this tightrope?  
And I feel nothing when it storms  
You know you're killing me with silence  
You hold your halo up with horns  
You hold your halo up with horns

You know you're clever, I'll give you that  
You gave me heaven and took it back  
That's not an insult  
That's just the case  
You've had your pretty mask on  
For so damn long  
That everybody thinks it's your face  
But underneath your eyelids  
I can hear the silence  
Spreading like a virus  
Why'd you wear disguises?  
Why'd you have to cut me?  
Then act like it's nothing  
This time I'm not bluffin'  
How'd you know I'm bluffin'  
Every single time  
Wicked little mind  
Gets inside of mine  
And I can fake a smile

But you're just killing me with silence  
But you're just killing me with time  
I don't know where to put my sorry's  
You're running laps around my mind  
How could you leave me on this tightrope?  
And I feel nothing when it storms

You know you're killing me with silence  
You hold your halo up with horns  
You hold your halo up with horns

Ho-o-o-rns

(You)

Ho-o-o-rns

(Oh Lord)

Ho-o-o-rns

(Whooo-oh-oh)

Ho-o-o-rns

You hold your halo up with horns

Ho-o-o-orns

Ho-o-o-rns

(Oh no, no, no)

Ho-o-o-orns

You hold your, you hold your, you hold your

Ho-o-o-orns

You hold your, you hold your, you hold your

Ho-o-o-orns

And you're just killing me with silence
