

# All Good

Mike Stud

I think I'm stuck in the middle of never caring or caring too much  
Too many of these after parties to ever pursue love  
And you know that I've been chasing bills, Cosby  
Tryna get top of the hill figures like Tommy  
Cause real recognize real like we related  
One night with bitches that'd much rather be dated  
I'm just faded, but it feel like we gon' make it  
Team full of stars, my life's a constellation  
Tyler got that new Ferrari, and Marcus went and got that Audi  
And I ain't make it to my drafting day  
Ain't got that athlete money, but the ass is great

Man, I swear it's all good  
Yeah, I swear it's all good  
Man, you know it's all good  
She came with you, left with me  
But I swear she all good  
Yeah, I swear it's all good  
Man, you know it's all good  
I swear it's all good

She thought I was a douchebag, but that's before she met me  
Keep my circle small; they're the few that really get me  
And my eyes are getting heavy but I'm pushing on  
Come through, I got a list that we could put you on  
I swear it's all good, and everything is kosher  
My sex on the beach on the coast and yours is on a coaster  
And you can say I'm doing better than before  
You look amazing in that dress, but it'd look better on the floor  
Now I should probably close the tab out  
And I should probably call the cab now  
I got a crib with the city in the background  
Take you back now, make you tap out  
Call your man now, tell him that you all

Ex messaging my phone now, asking when I'm coming home now  
I'd rather do this on my own now, I really mean it  
Cause fuck love, that shit is inconvenient  
I ain't got the time  
I'm on my grind though, million dollars on the line - nope  
I ain't sign, no  
Cause every day I negate all the connotations  
And people that try to hate and debate on my rise to greatness  
But I swear, I swear it's all
