To close to the money, my ice in the gutter

Fuck the felony, I beat the charges

See me in a truck it's Maserati, all my passion is reachin' the masses

All this cash is right under my mattress

I go smashin' all over the atlas, I go splashin right up with the action

All these bullets wrapped up in some plastic

30 Shots hold it right in the ratchet

All my mans are straight up and savage and shit

Sleep on fendi, I play with the badest

Easy money, these cars and these hoes and lights they be flashing

It's causing the madness

Come straight to my crib with no panties

She tryna be down with a bandage

For these bands I'm a take full advantage

When I up, I whip panoramic  
Fuck the motive, just pass me a xanax  
You just left me alone and abandoned  
Shoulda known I was causing some damage  
Al Capone I jump right in a Phantom  
Had your mama on crack cause of service  
I'm just living my life with a burden, I hop in a spur and I'm closing the c  
urtain  
As I look right in your eyes and you down in your soul I can tell that you h
