

# Game For a Lame

Mike Will Made-It

(4x):

I got game for a lame  
I got game for a lame  
I got game for a lame  
I got game for a lame

I'm finally at that light, my life flash 'fore my eyes  
Is this what they talkin' 'bout? One day you'll lose your pride  
Decisions to be made and I'm runnin' out of time  
And if this deja vu, rewind me to the time  
I'm in the kitchen workin' two blocks, worked my way to two pots  
The streets done got too hot  
It's time to find a new spot  
I'm finally at that light  
I'm finally at that light  
You should get a name in the game for the money and the fame  
Don't chase 'em, replace 'em, when pimpin' begin, friendship end  
Record hater, 600 Benz  
Rollie, Rollie, sauced up  
Piped up, fuck your bitch life up  
Styrofoam, lean, lean  
Eat the family, oooh wee  
Game 'fore a lame bitch breathe

(4x):

I got game for a lame  
I got game for a lame  
I got game for a lame  
I got game for a lame

I got game for a lame, pussy you a lame  
I know you ain't gettin' it, I know you just playin'  
I'm up in here loaded, all my niggas smokin'  
All these hoes freaky, fuck 'em then we throw them  
I'm gettin' money for real, ballin' with no deal  
Lean we pop, sell, and we sale  
Bags and forreal, I'll work you a deal  
You can get it here, and my roof is clear  
You know how I'm gettin' it, flip it then I spend it  
Re-up and then unload, you know my shop is up  
Know I'm always gettin' it, yeah the trap is rollin'  
Game for a lame, finessed him out every token
