

# Keep Changing The World

Mikeschair

Something here is wrong  
There are children without homes  
And we just move along  
To take care of our own  
There's so much suffering  
Just outside our doors  
A cry so deafening  
That we just can't ignore

To all the people who are fighting for the broken  
All the people who keep holding onto love  
All the people who are reaching for the lonely  
Keep changing the world

Take a look around  
Before the sun goes out  
What's lost can still be found  
It's not too late now

It only takes one spark  
To make the fire burn  
So reach inside your heart  
And let this be the start

I see you changing the world!  
Every boy  
Every girl  
Step up!

I see the sun coming up  
It's a brighter day  
Let's show the world that love is a better way  
So lend a hand join the fight  
'Cause time is ticking away (2x)
