

Baby Don't You Let Me Down

Mikey Wax

Long nights of whiskey are bringing me down
The stars look so distant from here on the ground
You offered me something I could not resist believed in a future
that did
not exist
But I wanna show you
Just hear me out

Baby don't you let me down
Stay here with me
Baby won't you turn around
Got my heart on my sleeve
Maybe if i break it down
I think you'll agree
It's you and me forever
So baby don't you let me down

Long flights from Nashville out to LA
Thought I saw you cryin as I boarded the plane
Now how I realize your life's like a stage the curtains are closing
but don't
turn the page

Baby don't you let me down
Stay here with me
Baby won't you turn around
Got my heart on my sleeve
Maybe if i break it down
I think you'll agree
It's you and me forever
So baby don't you let me down

And I won't tell you no
But I won't let you go
And that's a problem for both you and me

Baby don't you let me down
Stay here with me
Baby won't you turn around
Got my heart on my sleeve
Maybe if i break it down
I think you'll agree
It's you and me forever
So baby don't you let me down
