

# Baby Don't You Let Me Down

Mikey Wax

Long nights of whiskey are bringing me down  
The stars look so distant from here on the ground  
You offered me something I could not resist believed in a future  
that did  
not exist  
But I wanna show you  
Just hear me out

Baby don't you let me down  
Stay here with me  
Baby won't you turn around  
Got my heart on my sleeve  
Maybe if i break it down  
I think you'll agree  
It's you and me forever  
So baby don't you let me down

Long flights from Nashville out to LA  
Thought I saw you cryin as I boarded the plane  
Now how I realize your life's like a stage the curtains are closing  
but don't  
turn the page

Baby don't you let me down  
Stay here with me  
Baby won't you turn around  
Got my heart on my sleeve  
Maybe if i break it down  
I think you'll agree  
It's you and me forever  
So baby don't you let me down

And I won't tell you no  
But I won't let you go  
And that's a problem for both you and me

Baby don't you let me down  
Stay here with me  
Baby won't you turn around  
Got my heart on my sleeve  
Maybe if i break it down  
I think you'll agree  
It's you and me forever  
So baby don't you let me down
