

Bottle Of Jack

Mikey Wax

She's like a fire burning up the debris
oh I need to loosen up my collar to breathe
And there's no window here to let in the breeze
but she can give me all the air that I need

And she flies through the night
Yeah she'll keep burning till the break of dawn
Like a star in the sky
All eyes are on her when she walks in the door

She's got me spinnin round the room like a bottle of jack
Yeah she calls me just a friend but I know better than that
And she pulls just like a magnet and I keep coming back
But when the morning breaks through the night
She disappears out of sight

When everybody's gettin ready to leave
oh we've only just begun to roll up our sleeves
Yeah I'm a prisoner and she is the queen
but she can go ahead and throw out the keys

Cause she flies through the night
Yeah she'll keep burning till the break of dawn
Like a star in the sky
She lights the place up when she walks in the door

She's got me spinnin round the room like a bottle of jack
Yeah she calls me just a friend but I know better than that
And she pulls just like a magnet and I keep coming back
But when the morning breaks through the night
She disappears out of sight
