

Counting On You

Mikey Wax

Who knows
crazy as life goes
we'll write a story
we tell til were very old
so let's live lost in the moment
taking it all in as we go...

you know I'm counting on you not running
stay with me let it keep on coming
you and I need to hold on through
as the world is in constant motion
you stay with me through this strange emotion
you and I, we will make it through

lets go into the unknown
letting our lives flow
together we'll lose control
I know that lately
I've been acting crazy
We gotta let this feeling roll

you know I'm counting on you not running
stay with me let it keep on coming
you and I need to hold on through
as the world is in constant motion
you stay with me through this strange emotion
you and I, we will make it through

Close your eyes and dream
Feel the wind on the open highway
All I need is the breeze and your love

you know I'm counting on you not running
stay with me let it keep on coming
you and I need to hold on through
as the world is in constant motion
you stay with me through this strange emotion
you and I, we'll make it through

Oh you and I, we will make it through
