

Fall For You

Mikey Wax

Life would be easier
If I never knew about you
Seasons would come and go
In the blink of an eye...

Sundays would blend to one
I don't think I'd ever notice
Til all of these days were gone
What you bring to my life...

Now summers move fast
Winters move slow
Spring will let all your colors show
But I'll always Fall for you

Dreamers have lay awake
To take in your sleeping beauty
Poets have drawn a blank
By one look in your eyes
And please make no mistake
Though I wont always tell you
But each day's a holiday
Now that you're in my life...

And Summers move fast
Winters move slow
Spring will let all your colors show
But I'll always Fall for you

Somehow I know
Day after day
Though I can't always make you stay
That I'll always fall for you
And Summers go fast
Winter move slow
Spring will let all your colors show
But ill always Fall for you...
