

Ghost In Love

Mikey Wax

She reaches for his hand
And pulls herself close
She says "I don't understand it's like I'm a ghost"
She says "I've been here every day giving all my love away"

But he looks through the one who loves him most
No he doesn't realize that she's been laying there so close
And he's turned her into a ghost
A ghost in love

She opens up the door
Pretends to leave
She hopes he might feel more
But he just feels the breeze
She says "I've been here every day giving all my heart away"

But he looks through the one who loves him most
No he doesn't realize that she's been laying there so close
He's turned her into a ghost
A ghost in love
He's turned her into a ghost

She said "I've been here every day but you just threw my heart away"

Yeah I looked through the one who loved me most
No I didn't realize that she was laying here so close
I turned her into a ghost
A ghost in love
I turned her into a ghost

Yeah I looked through the one who loved me most
No I didn't realize that she'd been laying here so close
I turned her into a ghost
A ghost in love
I turned her into a ghost

She said "I've been here everyday"
But I just threw her heart away
