

Goodbye Too Soon

Mikey Wax

I've been around
I've been to lost Peru
But I couldn't tell you which way that is
I'm colorblind
Can't tell you black from blue
But I know I said goodbye too soon
Yeah I know I said goodbye too soon

I've seen the sun set from an ocean view
But I couldn't tell you how far it is
And I don't know how you'd fly from the earth to the moon
But I know I said goodbye too soon
I know I said goodbye too soon

Oh and I lost my way
It's the same mistakes I always make
And now I know there is little I can do
I know that i've said goodbye too soon

Now I've been in love
I've seen what two hearts can do
But I couldn't tell you how much to give
And I don't know if, the heart can be overused
But I know I said goodbye too soon
Yeah I know I said goodbye too soon

Oh and I lost my way
It's the same mistakes I always make
And now, I know there is little I can do
I know that i've said goodbye too soon

It's been a while
It must be a year or two
But I know I said goodbye too soon
