

Holiday

Mikey Wax

Put on your shades let's take a holiday
Go back down to Del Ray
The time i first saw your face

Laying there, tan from the sun rays
A straw hat right in place
I never thought you'd look my way

When did the clouds get in the way
When did the blue skies turn to grey
I know a place where we could save our fate

What do you say? lets take a holiday
Go back down to Del Ray
The time i first saw your face

Just you and i, oh and a bottle of wine
The sun setting right on time
The crashing of waves

When did the clouds get in the way
When did the blue skies turn to grey
I know a place where we can save our fate

Just put on your shades lets take a holiday
Go back down to Del Ray
The time i first say your face
