

# Keep Dreaming

Mikey Wax

Don't have this world all figured out  
It always rains the days I plan to walk outside  
But I'll be fine just stuck inside  
you and I

Oh I know someday  
That your love will come my way

Til then I'll Keep dreaming of love a little longer  
Long enough to make it seem real  
I keep dreaming your love is gonna come  
And you'll notice how I've always been here

Yea I know someday our paths will cross  
We'll start as friends  
You'll be Rachel I'll be Ross  
And we'll make up for the time we lost  
I'll be better off

Once you're here to stay  
Once your love has come my way  
Til then I'll  
Keep dreaming of love a little longer  
Long enough to make it seem real  
And I keep dreaming your love is gonna come  
And you'll notice how I've always been here

I'm here  
standing here  
I'm in the clear

I'll be here to stay  
Once your love has come my way

Til then I'll  
Keep dreaming of love a little longer  
Long enough to make it seem real  
And I keep dreaming your love is going to come  
And you'll notice how I've always been here

I'm here, standing here, I'm in the clear
