

Love Light (triad)

Mikey Wax

It's hard to imagine your life without love right now
Where could it go?
And all of the words that you feel creeping up inside
Are now in control
Say what you want on your own time
But remember
And do as you will with your own life
But remember

Don't let the sun into your eyes
Oh love, come and take me away with your lies

Your shelter keeps me home
Your love light you turn me on
Your shelter is my home
And I don't think I'm walking away

So float like a feather you know that love makes you high
And keeps you alive
But how will you swim with your heart sinking like a stone
Under the tide
Dream like you do in a movie
Cause you're the star
You know she's a talented beauty
She will steal your heart

Don't let the sun into your eyes
Oh love, come and take me away with your lies

Your shelter keeps me home
Your love light you turn me on
Your shelter is my home
And I don't think I'm walking away
Your shelter keeps me home
Your love light you turn me on
Your shelter is my home
And I don't think I'm walking away
