

## Nice To Meet You

Mikey Wax

It's nice to meet you once again  
Who is this beneath your skin?  
You look so troubled  
I'll help solve the puzzle if you let me in

It's funny how it all works out  
Even when we had our doubts  
It's a constant struggle  
I guess that's what love is all about

So go on go change  
You know that change is good  
And it's a risk worth chancing  
So turn the page  
And leave the music on  
When everyone is gone  
There's you and me left dancing  
On an empty stage

It's nice to meet you once again  
I let you out now let me in  
I won't surrender  
I know December will keep us close

So go on go change  
You know that change is good  
And it's a risk worth chancing  
So turn the page  
And leave the music on  
When everyone is gone  
There's you and me left dancing  
On an empty stage

Confusion my close friend  
Your timing is perfect once again  
Let's try to save it  
Don't waste it

So go on go change  
You know that change is good  
And it's a risk worth chancing  
So turn the page  
And leave the music on  
When everyone is gone  
There's you and me left dancing  
On an empty stage

So it's nice to meet you once again
