

Shine On

Mikey Wax

it was cold in the dark so cold as i laid up alone
not a match i could spark, a match or a friend i could phone
come on shine little girl, come shine and take me far away

ain't it wonderful to see the grand design
the earth the moon the stars are all aligned
after all is said and done
don't be a shadow in the sun
come on shine on little darling shine along

it was good to pretend how good it felt to have some space
there was long nights in bed
i longed just to see your face
come on shine little girl, come shine and take me far away

ain't it wonderful to see the grand design
the earth the moon the stars are all aligned
after all is said and done
don't be a shadow in the sun
come on shine on little darling shine along

shine along, come shine along, come shine along, come shine along

after all is said and done
don't be a shadow in the sun
come on shine on little darling shine along
come on shine on little darling shine along

after all is said and done
don't be a shadow in the sun
come on shine on little darling shine along
come on and shine along, come on and shine along, come on and shine
along
