

# Take Me Home

Mikey Wax

Well the wheels keep turning  
Been driving for hours into the night somewhere unknown  
But the headlights, traffic and radio static tell me I'm not al  
one

Saw her face in the distance  
Out of place but for an instant  
we were home

I play the music she's burning cigarettes and slowly breathing  
out as I take  
her in  
If I could hold you it's been forever but forevers not that lon  
g  
Take me home  
Take me home  
We're alone  
So won't you take me home

Well the years feel shorter but hours seems longer back in my c  
ar  
With miles to go  
And the moon much brighter the mountains seem higher with the  
windows rolled down low

Saw her face in the distance  
Out of place but for an instant  
we were home

I play the music she's burning cigarettes and slowly breathing  
out as I take  
her in  
If I could hold you it's been forever but forevers not that lon  
g  
Take me home  
Take me home  
We're alone  
So won't you take me home
