

With You Goes

Mikey Wax

I know you always tell me
Before I turn around
And now our time looks over
It was left just as it was found

Time is restless in life and love
Now I guess my time is up

But when you stand
With these words inside your hand
I'll bring you love
I know you'll try
With your heart into what's real
I'll bring you luck
You'll find your way
That I know for you've been raised by those I trust
And with you goes
The entire hopes of the world

I know you might be somewhat
Confused and still unsure
So I have saved you this gift
It's not much but its' thought is pure

Time is restless in life and love
Now I guess my time is up

But when you stand
With these words inside your hand
I'll bring you love
I know you'll try
With your heart into what's real
I'll bring you luck
You'll find your way
That I know for you've been raised by those I trust
And with you goes
The entire hopes of the world
