

# Yes

**Mikey Wax**

Said it's so good to see you  
We started the night with a drink for two  
And we laughed at that old joke  
And danced to that old tune

I held you like you were still mine  
How easily I cross the line  
You said we can't go back that way  
It just felt like nothing changed

Yes, now as time has gone to show  
I can make it on my own  
All alone  
Yes, now as I have come to be  
I am fine with just me  
Just with me

When the night came to an end  
You had to leave with all your friends  
I should have asked you if you'd stay  
I just let you walk away

Yes, now as time has gone to show  
I can make it on my own  
All alone  
Yes, now as I have come to be  
I am fine with just me  
Oh just me

But the night came to an end  
I watch you disappear again
