

# Comatose

Mikky Ekko

I lost my head out in the cold  
And pills and needles always waitin'  
You lost a nerve and all control  
I can feel it  
I can feel it  
And it feels like waiting

We pushin' for revolving dawns  
We end up where we were before  
Right back at the scene

And I can open doors to an empty room  
Still a part of me  
And even a part of you

In another life we can work it out  
We never speak  
So it's hard to do  
We really want to live this way

Cause all I really want is you to stay  
Maybe it's easier girl  
Comatose

We worked so hard to stay above  
All temptations we created  
Now we go wander and call it love  
I can feel it  
I can feel it  
But the feeling's fading

We pushin' for revolving doors  
We end up where we were before  
Right back in the dream

And I can open doors to an empty room  
Still a part of me  
And even a part of you

In another life we can work it out  
But we never speak  
So it's hard to do  
We don't really want to live this way

Cause all I really want is you to stay  
Maybe it's easier

In another life we can work it out  
But we never speak  
So it's hard to do  
We don't really want to live this way

Cause all I really want is you to stay  
Maybe it's easier  
Maybe it's easier  
Comatose

But I don't really want to live this way  
Baby we can work it out  
Comatose
