

Made Of Light

Mikky Ekko

Here we are
Children of the wild
We defeat the skies
The minors of the pain and the sacrifice
So long blood, sweat and the tears pay the price
and we pay the price

so It's crazy, how we wait so long
How we wait so long to call together

The river runs it's track
And you have nothing left to give
The stars lost their shine
I will, I will berth for you
When the darkness comes
To try and steal your pride
Don't loose hope
You tell 'em
We are, we are made of light
mmm We're made of light

Here I am
Take me if you want me
Pull me through your fire
Teach me how to land cause I'm
So afraid I don't know what it means to love
So afraid what I give is never enough

It's crazy how we wait so long
how we wait so long to call together

The river runs it's track
And you have nothing left to give
The stars lost their shine
I will, I will berth for you
When the darkness comes
To try and steal you pride
Don't loose hope
You tell 'em
We are, we are made of light

Oh, I know you've been alone
Alone so long
I see you though in fullness of
defeat and pain and broken love
So we're waiting to
We're strong enough to see,
To see, to see that now we know...

[Chours]
The river runs it's track
And you have nothing left to give
The stars lost their shine
I will, I will berth for you
When the darkness comes
To try and steal you pride
Don't loose hope

You tell 'em
We are, We are made of light
Oh, oh....
