

# Watch Me Rise

Mikky Ekko

When it's cold out, when the night is still  
And you're standing alone  
I'll be racing when the lights go out  
And you're losing control  
Higher, higher, higher we go  
Tell me, tell me we're close enough to touch the Sun, the Sun  
Higher, higher, higher we go  
Tell me, tell me the journey's only just begun, begun

I-I-I-I'm still standing, I-I-I-I'm still climbing  
Even when the rest are falling, the rest are falling  
The rest are falling  
I-I-I-I'm still standing, I-I-I-I'm still climbing  
Even when the best are falling, the best are falling  
The best are falling  
You say, say my name  
Cause once I get my head above the clouds  
I'm never coming down  
Say, say my name  
Cause once I get my head above the cloudy skies  
Watch me rise  
Watch me rise

Now paranoia's setting in and I'm falling from these stars again  
While every part of me screams, "hold on"  
Cause if you can't learn to bend then you break  
Oh my God, how long does it take?  
Every lesson we learned took so long  
But it made us strong

I-I-I-I'm still standing, I-I-I-I'm still climbing  
Even when the rest are falling, the rest are falling  
The rest are falling  
I-I-I-I'm still standing, I-I-I-I'm still climbing  
Even when the best are falling, the best are falling  
The best are falling  
You say, say my name  
Cause once I get my head above the clouds  
I'm never coming down  
Say, say my name  
Cause once I get my head above the cloudy skies  
Watch me rise  
Watch me rise

Higher, higher, higher we go  
Right into the fire we go

I-I-I-I'm still standing, I-I-I-I'm still climbing  
Even when the rest are falling, the rest are falling  
The rest are falling  
I-I-I-I'm still standing, I-I-I-I'm still climbing  
Even when the best are falling, the best are falling  
The best are falling  
You say, say my name  
Cause once I get my head above the clouds  
I'm never coming down  
Say, say my name

Cause once I get my head above the cloudy skies  
Watch me rise  
Watch me rise
