

Go Public

Mila J

Oh wo wo wo woo
oh no no no noo

To your friends your lying
To your rech your lying
On the phone your lying
Do yourself your lying
How you fail I'm trying
To believe were vibing
Why do we keep hiding
Baby we can fight it

Oh

Can we publicize it (can we) put it on the radio
(Oh can we) Baby let's just try it
Make ourself official (official)
The worst they can say is
You and i dont really go
But the more they see us
It's as if they watched a show
We fuss, we fight, we fall we rise we act like were in love
In front of everybody
We fuss, we fight, we fall we rise we act like were in love
In front of everybody

This love is ridiculous (ridiculous)
It's conspicuous (so conspicuous) it is making us public
This love is ridiculous it's revealing us
And it's taking us public
This love is ridiculous (ridiculous)
It's conspicuous (so conspicuous) it is making us (and it's making us) public
This love is ridiculous it's so dangerous and it's taking us public

To myself I'm lying
Every night I'm crying
I'm even denying
That I'm slowly dying
In these lights I'm shining
Off stage i aint smiling
People start to see there's something
I'm denying
Can we publicize it (can we)
put it on the radio (on the radio)
Baby let's just try it (lets just try it baby oh)
Make our self official
The worst they can say is
You and i dont really go (That we dont go that we dont that we dont that we
dont no)
But the more they see us it is more of the show

This love is ridiculous (we fight)
It's conspicuous (we fight) it is making us public (and you know it is)
This love is ridiculous it's revealing us
And it's taking us public

It's conspicuous (Public)
