

Things You Do

Mila J

I remember when you said,
That meeting a girl like me comes once in a lifetime
I feel the same way about you
Yeah

From the moment I saw you
It was something 'bout you
You warmed my heart with your irresistible smile
You're raspy voice had me mesmerized
It was love at first sight,
I seen it in your eyes I can't deny you gave me butterflies
Now I'm head over heels Yeahhh
Young and crazy in love
Cause you were custom made for me
And I was made for you
And for as long as I live
My hearts forever true

Life isn't long enough
(Long enough Nooo)
To love you like I want to
(Like I want to)
I'll never leave this world alive
While I'm here all I want is you
(All I want is you...)
Life isn't long enough
(Long enough...)
To hold you like I want to
(yeah yeah yeah...)
I'll never leave this world alive
While I'm here, All I want you

Pay Attention
They don't believe me, when I tell them mmmm... How beautiful
