[?], ain't no falling in love in the, streets
Hide your heart or keep it from me, thief
Know you got some combinations
Know you know I'm on a mission
Listen here, baby listen
Let me transform you
Let me transform you
Let me transform you
Uhuh
Let me transform you
Let me transform you
Let me transform you

Know I love the way you mad
Yeah, you know I like 'em bad
Know I see you making moves
Know I like the way you do, me
Feelin' like you see right through, me

Know I love the way we get along
Bae you know you're my favorite song
Yeah you know when we get it on
Baby you know we're down
Just let me know where you at
Yeah must let me let me

Let me transform you
