

# Brainwashed

Miles Away

If I blindly followed I'd be lying to myself  
Made the best of life with the cards that I've been dealt  
Gotta say that I've found peace within myself  
Won't waste time stand in a line your games I will not play  
Inside my head the coast is clear  
I stand my ground you'll never change my mind  
Refuse to wait I choose my fate  
And nothing!  
Nothings in my way  
Rules and regulations forced inside your head  
Follow the herd believe their words  
Live the fucking lie  
Inside my head the coast is clear  
I'll stand my ground got my own life to live  
It's a brainwash and I see strait through  
Suckers make you think you've got something to prove  
Your fucking brainwashed everything you do  
Following the leader like they told you to  
Brainwashed! your fucking brainwashed  
Brainwashed! you've gotta break out
