

Steadfast

Miles Away

This place keeps spinning but I'm not watching
They're all talking but I'm not listening
Some people I've met I'd rather forget
Five out of ten, I know were strong
We believe in this movement
The fucking message and what it means
It's what I put my heart into
Gives me strength to carry on
It's our sanctuary, keeps us alive
It's where I belong, and I've known it all along
Don't change for them, don't give an inch
Keep fighting, keep fighting
We still believe in those words
The fucking message and what it meant
It's what we put our heart into
It gives us strength to carry on
They can't judge me, this is my world
They can't judge us, this is our time
We keep fighting, We're still fighting
