

# Out of Control

Miles Kane

1. If I dream about the end of our story  
We'll see our names carved into stone  
You're taking me on a journey  
Into the unknown

Listening to the thoughts slowly break in  
The sirens singing songs in my head  
You're taking me on a journey  
Into the unknown

R: When I feel her touch I believe love  
Love is not a drug that's for certain  
But we'll rock as we roll  
Rev the engines and go  
Let's get out of control

2. When I'm falling apart  
And I'm lost in the world on my own  
I know that there's a place in your heart  
That I can call home

And I'm dreaming if you girl in this story  
And it feels just like it did at the start  
There'll never be an end to our journey  
Unless we're apart

R: When I feel her touch I believe love...

La la la la la  
La la la la la

R: When I feel her touch I believe love...
