

Take the Night From Me

Miles Kane

1. I've been searching for love
I'm sorry I escaped you
I wonder how I will end
For now, I'll carry to push on through
And bite my jealous lip
And hope to turn it to a kiss

R: Take this night from me girl
You're stunningly divine
Take this night from me girl
You're the love I've been searching for
'Cause I will be true, I will be faithful
And that's not like me
So take the night from me

2. And now my worried concave of thoughts
Won't linger anymore
Because I've been trying my best
Yet still I've been skipping through my years
To cover my sacred tears,
Ready for the heartaches and fears

R: Take this night from me girl
You're stunningly divine
Take this night from me girl
You're the love I've been searching for
'Cause I will be true, I will be faithful
And that's not like me
So take the night from me
Take it from me
And then darling you will ask me where I've been
Take it from me
Take it from me
Take it from me
Take it from me
