Evil Is But a Shadow

Evil is but a shadow That always accompanies the good You can try to have a world A world without the shadow But it'll be a dark, dark and cold place world Cause it would be a world, a world without light too Oh, ohh, oh The lights of nature

The light of the true The light of silence The light of all I do The brigter it shines from the mountain The more evil hides in its hole Enjoy soo hard to defeat us A world starting to lose your control Oh, ohh, oh Trol, lose your control Trol, lose your control Trol, lose your control Trol, lose your control

We won't stop We'll let it go, it drop How'd it get to be so obvious? I'll have fun We won't stop We'll let it fucking drop We won't stop, oh I'll have fun

Evil is but a shadow A shadow in this world Evil is but a shadow A shadow in this world Evil is but a shadow A shadow in this world
