

# I Get So Scared

Miley Cyrus

They say love grows, but I've only seen it die  
I'm too young to feel like I'm runnin' out of time

I get so scared  
Thinkin' I'll never get over you  
I'll always be making a compromise  
No matter what I do, ooh  
And maybe I'll never get over you

I've heard no one controls what happens in our lives  
The universe gets to decide, our future is written up here in the sky

And I get so scared  
Thinkin' I'll never get over you  
Everything I've imagined  
And none of our plans coming true

I met someone new and now I'm scared to go all the way  
I hear you in my mind and can't let go of what you used to say  
I'm freakin', it's repeating' when you said there'll never be a day  
When letting go feels like before, tonight we're tryin' anyway

And I get so scared  
Thinkin' they'll all be just like you  
All the ways that you hurt me  
And all of the shit you put me through

But maybe  
They'll all be just like you  
Or maybe, they'll never come close to you  
So maybe, I'll never get over you  
Baby
