

It's a fact
That you've got me
Spinning around, spinning round
And it's a fact
That your love
Lifts me up above the ground
It's too good to be true
But is this really you
I can't shake the addiction
Is it fact or is it fiction

Can't believe what I feel
Can't believe that is real
Is it my imagination
My imagination
Can't believe what I feel
Can't believe that is real
Is it truth or is it fiction
Truth or is it fiction

It's a fact
That you've got me
Flying high, flying high
It's a fact
That your love
Slathers rainbows through my sky
It's too good to be true
But is this really you
I can't shake the addiction
Is it fact or is it fiction

I should see through you
See you're just a fabrication
I should see through you
A figment of my imagination
