

In My Eyes

Milk Inc.

In my eyes you'll see
The way it used to be.
Take a look and see,
The light still shines in me.

In my eyes you'll see
The way it used to be.
Take a look and see,
The light still shines in me.
There's a part of me,
That I forgot to be.
Take a look and see,
The light still shines in me.

Take a look and see,
The light still shines in me.
Take a look and see,
The light still shines in me.
In my eyes...

In your arms it seems,
You've taken all my dreams.
Take a look and see,
The light still shines in me.
There's a part of me,
That I forgot to be.
Take a look and see,
The light still shines in me.

In my eyes, in my eyes,
The light still shines in me.
