

## In My Eyes

Milk Inc.

In my eyes you'll see  
The way it used to be.  
Take a look and see,  
The light still shines in me.

In my eyes you'll see  
The way it used to be.  
Take a look and see,  
The light still shines in me.  
There's a part of me,  
That I forgot to be.  
Take a look and see,  
The light still shines in me.

Take a look and see,  
The light still shines in me.  
Take a look and see,  
The light still shines in me.  
In my eyes...

In your arms it seems,  
You've taken all my dreams.  
Take a look and see,  
The light still shines in me.  
There's a part of me,  
That I forgot to be.  
Take a look and see,  
The light still shines in me.

In my eyes, in my eyes,  
The light still shines in me.
