

It's Over

Milk Inc.

This is the last dance
This is the end
Next time i'll see you
We'll just be friends
We'll each wear our masks
After we say goodbye
And know we can't ask
For the reasons why

As much as i try
The moment's gone
And i can't keep time from marching on

We had it all, had it all, had it all
But it's over, it's over, it's over now
So hard to face, hard to face, hard to face
That it's over, it's over, it's over now

This is the last song
I'll sing for you
Next time i'll hear you
You'll be with someone new
It won't be easy
To fake a smile
But i can't let it show
I haven't closed the file
