

# Summer Rain

Milk Inc.

I know you're looking at me  
I can feel you stare  
Why don't you come over here  
If only I would dare

I don't know what to say  
'Cause words can't describe  
But listen to the music  
Something's in the air tonight

One single word  
Can be too much  
Let the rhythm do the talking  
Wanna feel your touch

One drop of rain  
Is not enough  
'Cause I can fill an ocean  
With my love

I hear you calling my name  
Calling my name  
Dancing in the rain

I hear you calling my name  
Dancing in the rain  
Dancing in the summer rain  
Dancing in the summer rain  
Dancing in the summer rain oh oh  
Dancing in the rain

The party's driftin' away  
There's only me and you  
And though I don't know your name  
I know I'm into you

Feel like I'm somebody else  
You make me feel so shy  
But listen to the music  
Something's in the air tonight

One single word  
Can be too much  
Let the rhythm do the talking  
Wanna feel your touch

One drop of rain  
Is not enough  
'Cause I can fill an ocean  
With my love

I hear you calling my name  
Calling my name  
Dancing in the rain

I hear you calling my name  
Dancing in the rain

Dancing in the summer rain  
Dancing in the summer rain  
Dancing in the summer rain oh oh  
Dancing in the rain

One single word  
Can be too much  
Let the rhythm do the talking  
Wanna feel your touch

One drop of rain  
Is not enough  
'Cause I can fill an ocean  
With my love
