## **Bang Your Head**

## **Milla Jovovich**

Hey little devil that dwells inside This angels body, this angel's mind He said all I need is jesus to fly Take a little peak through that head of hair I now somewhere there are eyes in there Trying to hide a heart that's shining, so bright

They said what makes you different, from us? We're gonna band your head, down

I've got a dream that's growing inside me I'm ready to burst and set it free I know God waits in the city, of angels Now I've been building a wall these many years I feel safe inside hiding all my fears Don't hold your breath If you're trying to touch me

They said don't believe in yourself We're gonna band your head, down We're gonna band your head Band your head down

We are aging Soon to pass away So cruel to never know, never know Never finish what was started.

My whole life's been really strange I've been running in circles Trying to make a change I transcend myself with billy I'm home
