

Don't Fade Away

Milla Jovovich

Hello sunshine
Please don't fade away
See our genius
Warp what we created

No, don't fade away

Stepping over
Shadows from your smile
Losing myself
In these waves of light

No, don't fade away, no, don't fade away

See them washing
Hearts with teardrops
Bless these simple souls
Baby soldiers
Marching onward
Watch their hopeless eyes

No, don't fade away, no, don't fade away

Oh my, am I high
Is that a glow up in the sky
Oh my, am I high
Is that a glow up in the sky

Whitewashed liars
Stupid teachers
Blinded are these broken dreamers
Little rulers
Who will teach them time ... time

No, don't fade away, no, don't fade away
No, don't fade away

Oh my, am I high
Is that a glow up in the sky
Oh my, am I high
Is that a glow up in the sky
