

# Flashlight

Milla Jovovich

All the drops on his cheek  
Are frozen up  
Watch his heart  
Turning into rock  
Walks for hours  
In black desire  
Soft and deep and  
Counting shades of quite  
Living in your fire, Living as fire  
Test myself like a nuclear site  
I'm tired of my insides  
Put my filters on

I'm a flashlight, I'm a flash of light (6x)

I fly to hit the sky  
Flying so high I look down at the sky  
I look down at the sky

Feast your eyes on my little paddle  
Put my firefly on the mantel  
Had to pass you by without sighing  
How do I say goodbye to a firefly?  
How do I say goodbye to a firefly?

Flashlight, I'm a flash of light  
I'm a flashlight, I'm a flash of light (3x)

I fly to hit the sky  
Flying so high I look down at the sky  
I look down at the sky  
I look down at the sky

Easier to look outside  
All these needs  
No tears spill all over  
Shake away to  
To stare over

I'm a flashlight, I'm a flash of light

Oh my firefly (4x)  
How do I say goodbye to a firefly? (3x)  
How do I say, say, say, say, say  
How do I say goodbye to a firefly?  
How do I say goodbye to a a a firefly?
