

Left & Right

Milla Jovovich

Drown my head
In the fire
Were moving faster now
Burning brighter
watch as you fade out
I'm left and right
walking up and down
getting closer to, the point of impact
hold me, under
stay away and say "I can never decide with you"
my heart my whole life override my mind
what I wait to find
to make me go blind
and the whole world, is rising
Throw myself
you go down below
watch the vapor, slide through the water
at last, he'll run
