

## Left & Right

Milla Jovovich

Drown my head  
In the fire  
Were moving faster now  
Burning brighter  
watch as you fade out  
I'm left and right  
walking up and down  
getting closer to, the point of impact  
hold me, under  
stay away and say "I can never decide with you"  
my heart my whole life override my mind  
what I wait to find  
to make me go blind  
and the whole world, is rising  
Throw myself  
you go down below  
watch the vapor, slide through the water  
at last, he'll run
