

Just like the children's sandpit  
Just like the wild wild west  
At random choose a target  
It's not enough to be second best

So you wanna fight them  
The weaker one is always wrong  
Yeah now you wanna fight them  
A real man's gotta show the world he's strong

Stuck up, abuse of powers  
It's a part of a leader's role  
"We only take what's ours"  
A slick line to stay in control  
Hate breeds more hate it's easy ot understand  
To retaliate and to be a true macho man  
Goes hand in hand

So show the world you're strong  
The weaker one is wrong  
And I know it won't take long  
Until they're dead and gone
