

Flippin' Beans

Millencolin

I got a plan for you and I
I wanna take you to for this ride
across the flippin' beans
I'll sit and wait for you and me.

I want and i feel
that piece of you, that I see that's for me.

You say you really hate it too
you say you wanna take a highgrip
inhale gasoline, you sit and wait
then you watch me flee.

Stranger in a strange land
that's what I am
you turn away from me, boom and bam
I got to see you, cause you blew my mind
and now you gonna die, so don't ask why.
