

## Nosepicker

Millencolin

You pick your nose while I'm watching  
and I'm quite impressed  
if you pick again, pick one for your friends  
they're leaving you, leaving you all alone  
When you're in the mood to do the stuff that you'll regret  
then take a knife, it could end your life.

It's your nose that you are picking  
It's your choice to pick your nose and think  
It's groce to pick your nose like that in front of all your so  
called friends  
but if it makes you feel better than this story's rather sad.

Just let me tell you what i think  
I think you really stink  
you took my feelings and went away, stay away  
is it enough or do you want some more?

I will never open my door for you anymore  
if you don't change your way, stay away.

I don't want to ask you another question  
about me and you, because you don't care

Nosepicker told me, plug your finger and keep on picking  
But don't pick on me, I'm in your dreams in color  
and i think I'll stay there for long  
Forget the time, it's pointing at you  
You must be bad, must be bad, must be rather sad.
