

## Out From Nowhere

Millencolin

You came out from nowhere  
And left me behind in time  
You change my mind

The days pass don't by  
It was empty and dark in there  
Are you free nowhere

Well I've got too change to pass this by  
Come in the hours, ask him why  
It's easy for you to promise

I'm gonna change my life  
I wanna leave you today  
When angels are coming my way  
I'll be free when you're through  
This time I'm gonna stand tall

There's a new where I hear time to get up and fight to go  
When you're down and low  
No time to feel changes embarrass this forget the past  
It was never us  
We all gotta change to pass this by

I'm gone change my life  
I wanna leave you today  
When angels are coming my way  
I'll be free when you're through  
This time I'm gonna stand tall

I'm gonna leave you today  
Now I go my own way

So here we go again  
With a feeling I'm gonna die today  
Yeah the chances are growing if I stay  
T-t-take me to another state of mind  
When all angels will feel us left behind

I'm gonna leave you today  
When angels are coming my way  
I'll be free when you fall  
I'm gonna change my life
