

# Martinis And Mixed Feelings

Millionaires

We've been drinking tonight  
But we're just getting started  
And I've gotta tell you that  
We shouldn't be parted  
I can already see ya boy  
Its gonna be a party 'cause  
The lights are all off and  
It's just you and me tonight

It started on that dance floor  
With the music really loud  
Lights are flashing bright  
As I'm dancing in the crowd

You walked up and asked to dance  
I can't believe you took that chance  
Our lips met, and eyes are closed  
And this is how our story goes

We've been drinking tonight  
But we're just getting started  
And I've gotta tell you that  
We shouldn't be parted  
I can already see ya boy  
Its gonna be a party 'cause  
The lights are all off and  
It's just you and me tonight

I'm falling for you  
As I'm falling in your arms  
Promise me this is real  
And I'm not falling for your charm

'Cause this feeling makes me shake  
And I know you feel it too  
Boy it's not the alcohol  
I'm in love with you

We've been drinking tonight  
But we're just getting started  
And I've gotta tell you that  
We shouldn't be parted  
I can already see ya boy  
Its gonna be a party 'cause  
The lights are all off and  
It's just you and me tonight

We've been drinking tonight  
But we're just getting started  
And I've gotta tell you that  
We shouldn't be parted  
I can already see ya boy  
Its gonna be a party 'cause  
The lights are all off and  
It's just you and me tonight

I want you boy

To hold my hand  
Whisper in my ears  
I want you bad

Sing me those songs  
When we're under your sheets  
One thing leading to another  
Once you kiss me on the cheek

I want you boy  
To hold my hand  
Whisper in my ears  
I want you bad

Sing me those songs  
When we're under your sheets  
One thing leading to another  
Once you kiss me on the cheek

We've been drinking tonight  
But we're just getting started  
And I've gotta tell you that  
We shouldn't be parted  
I can already see ya boy  
Its gonna be a party 'cause  
The lights are all off and  
It's just you and me tonight

We've been drinking tonight  
But we're just getting started  
And I've gotta tell you that  
We shouldn't be parted  
I can already see ya boy  
Its gonna be a party 'cause  
The lights are all off and  
It's just you and me tonight

We've been drinking tonight  
But we're just getting started  
And I've gotta tell you that  
We shouldn't be parted  
I can already see ya boy  
Its gonna be a party 'cause  
The lights are all off and  
It's just you and me tonight

It's just you and me tonight  
It's just you and me tonight
