

Stay The Night

Millionaires

I've got you blowing up my phone
and i know that you're looking right
if i let you walk me home
you know i'll let you stay the night

Touch me up and touch me down
shut your mouth dont make a sound
Got my lipstick on your collar
you can bet your bottom dollar you will

stay the night
stay the night oh oh
stay the night
stay the night

drink and dancing
what i want
take your clothes off
lets get it on
because i'm feeling lonely
you know its true
lets get naughty
and i want you to

stay the night
stay the night oh oh
stay the night
stay the night

you know i want ya and i need ya
but you're just a one night stand
if you get breakfast in the morning
youll be a lucky man

so lets just skip the small talk
don't mean to be a prick
now lets get down to business
all i need to taste is your lips

drink and dancing
what i want
take your clothes off
lets get it on
because i'm feeling lonely
you know its true
lets get naughty
and i want you to

stay the night
stay the night oh oh
stay the night
stay the night

At first we were just flirting
now we're getting down and dirty
make it rough make it tough
til you leave at 7:30

so if you get me drunk
my mouth will shut you up
we'll go down
on the ground
play around
til the morning we'll be

drink and dancing
whatt i want
take your clothes off
lets get it on
because i'm feeling lonely
you know its true
lets get naughty
and i want you to

drink and dancing
whatt i want
take your clothes off
lets get it on
because i'm feeling lonely
you know its true
lets get naughty
and i want you to

stay the night
stay the night oh oh
stay the night
stay the night
