

I Do

MIMS

I'm not trying to fight with you, I'm just trying to love you.

Check it out yo, she got it going on baby
Check it out yo, she got it going on baby
Check it out yo, yo she got it going on baby
Check it out yo, check it check it out!

Look
Clearly, it is plain to see
If it ain't meant to be
Then please explain to me
How we, we have came to be
You have came to me
Although we can't agree
And I know it often angers me
It often angers you
That's what pain'll do
Especially when they're saying to you
All the things you don't see, but they saying I do
But I'm saying I do
On my name I do
Retire my jersey let 'em hang my shoe
Right on the telephone wire
Lets grow, let's go higher
Till we're both old and tired
Cause even when we die, our souls won't expire
So, yup, I really want to know
Since it's really on you..

Let me hold my arms around you girl then take your fear away
If loving you is wrong, I'd rather be wrong I'm here to stay
I do it all for you, my feelings are true from the very depth of my heart
And don't you never, ever ever forget it babe

Uh, Hey girl you know you're so damn fine.
Yo! I'm about to lose my mind
Hey girl you know you're so damn fine.
Yo! I'm about to lose my mind

Look
Clearly it is plain to see
All the things I do effect you painfully
And NO you shouldn't change for me
You should change for you, wherever change may be
A thorn is never pretty as the flower
But the prettiest flower seems to have the most thorns
We as stubborn as a bull with both horns
All you got to say is I do, and maybe we can go on
And NO this ain't no song
If loving you is right, then there ain't no wrong
Therefore we can't grow long
Like a man with no arms I just can't hold on
Knowing that you ain't mine officially
I've got nothing but love like evidently-d
So girl I really want to know
Since it's really on you
Say...

Let me hold my arms around you girl then take your fear away
If loving you is wrong, I'd rather be wrong I'm here to stay
I do it all for you, my feelings are true from the very depth of my heart
And don't you never, ever ever forget it babe

Look,
This ain't a love song
This ain't a club song
I'm on my LL shit this ain't a thug song
This is a strictly from me to us song
So I guess that makes it more an us song

All my newlywed couples do you feel me?
All my couples still together do you feel me?
All my puppy love couples do you feel me?
You've been together for a while I know you feel me!

Let me hold my arms around you girl then take your fear away
If loving you is wrong, I'd rather be wrong I'm here to stay
I do it all for you, my feelings are true from the very depth of my heart
And don't you never, ever ever forget it babe

Hey, I need a honey
Uh, I need a honey (honey)
I need a honey
Oh, be my honey ay!
I need a honey, huh
I need a honey ay!
Oh be need a honey
