

One Last Kiss

MIMS

Our love will live forever
Just one more word just one last kiss good bye

Where do we start time apart, so many years so much heart
So many tears but still I couldn't cry them
Knew I was hurt but all I do is hide them
Wish you was here to see the places I've been,
I knew you would be proud to see the cars that I'm driven,
The home that I live in, I know that you listen'
But if you were here, I wonder would it be different?
What would it be like if I could add a few years
To the times she wasn't here to experience so you could see life
Man that would be like, changing the ending of a book that we like
But that ain't the story that I wish you would rewrite
Gotta keep going until they give me the green light
Livin' it up but still somethin' don't seem right,
Be gone in a physical but lifted my dreams like
Every night (every night) and every day (every day)
Every night (every night) and every day (every day)

Our love will live forever
Just one more word just one last kiss good bye
Our love will live forever
Just one more word just one last kiss good bye

Even though it's a dream to me,
It still seems to be what I perceive to be perfect scenery
What if your lost could come back at a cost
But they told you the price would be whatever your fortune is
Would you spend it in a minute, for a minute,
For a second just to ask one question about how life is in heaven
I would give it all back, to the point of no return
Just to feel one hug, or to hear one word
But it's the same what we learn what to value
But we still mull when there's no one around you
But mama I miss you, one day I'll be with you
As long as I live you know you lifted my men too
I'll never forget you, you know that I love you
You know that I am the that I am because of you
Before I leave, you see, imma believe that you ain't in the flesh
You will come in my dreams
Every night (every night) and every day (every day)
Every night (every night) and every day (every day)

Our love will live forever
Just one more word just one last kiss good bye
Our love will live forever
Just one more word just one last kiss good bye

Last night I had a dream and it felt so right
You held me in your arms and it felt so tight
And it felt so real, why would I wake up
I even day dream now, I don't wanna stay up
So you can take me to a place where I can go
And let my mind draw the picture that I control
Cause' I'm dreamin', yes I'm dreamin'
If you catch me asleep just leave me

Every night (every night) and every day (every day)
Every night (every night) and every day (every day)

Our love will live forever
Just one more word just one last kiss good bye
Our love will live forever (every night)
Just one more word just one last kiss good bye (and every day)
Good bye forever, one last kiss good bye
(good bye)
